

Prior Authorization (PA) requires plan members to request prior approval for a number of prescription drug treatments. Should you have a claim for any of the drugs listed below, you'll need to provide the plan with information to have the drug approved for coverage. The PA program is managed by Shoppers Drug Mart® through their Health Solutions Specialty Care service.

Follow these steps to request approval for coverage:

- [Click here](#) to be taken to the **Health Solutions by Shoppers** (In Quebec, [click here](#) for *Health Solutions by Pharmaprix*) prior authorization website
- Complete all the information with your doctor
- Send the form to Health Solutions Specialty Care for review

Health Solutions Specialty Care will communicate their decision to you within two business days of receiving your completed form. When coverage is approved, you may purchase the drug at the pharmacy of your choice, using your Telus Assure® card.

**The following listed drugs require approval for reimbursement.**

**You and your doctor will have to complete the proper form and submit it to Health Solutions Specialty Care.**

**List is subject to change without notice.**

|            |           |              |             |              |           |
